Specialized Data Systems Launches Newly Enhanced Website

EAST HAVEN, CT, March, 1 2016 – Specialized Data Systems, Inc. is proud to announce the launch of their newly enhanced corporate website; www.specializeddata.com. The new website will feature information on both the loan origination and operational risk management product divisions.

Additionally, the enhanced site offers a user-friendly layout, which is easier to navigate. Individuals can access information on the loan origination and operational risk management software, gain key industry insights, learn how technology is solving industry pain points, read the most recent newsletters, and learn more about how the company is delivering much needed solutions to the financial services marketplace.

The interactive site delivers many enhanced navigation tools. Simply click on “schedule a live demo” to set up a personalized demo with one of our experienced product managers for either RemoteLender or RemoteComply. To learn more about each product and the service each product offers simply click on “download product sheet” and select the product you’re interested in learning about.

Marc Riccio, President and CEO of Specialized Data Systems, has commented on the launching of the new website: “We have spent a great deal of time and resources to deliver a dynamic user experience that provides key industry insights and detailed product solutions through this highly professional web site that we are proud to display.”

Specialized Data Systems is extremely excited for this launch, and encourages you to check out the enhanced website at www.specializeddata.com.
